Database Project Proposal

a) Name of the project

Wholesale Clothing Vendor Database System

b) Group members

- 150119727 Melisa Durmuş
- 150119761 Cem Anaral
- 150120531 Hasan Şenyurt
- 150119803 Ali Yetim

c) Project description and scope

Our company is a wholesale clothing vendor. They are in need of a database system to automate their business. The company buys clothes from producers and then sells them to smaller shops.

The database will store the clothes (categorized by their sizes, colors, types etc.) bought from the producers, shops that are buying the clothes from our company, records of sales, information about employees and more.

d) Customer Info

We did not collect any documents from the customer just yet since professor said it was not mandatory.
